AT HOME PARTY.

Mesdames Maybe and Tomlinson Entertained Yesterday Afternoon.

Mesdames Geo. E. Maybe and H. R. Tomlinson gave an at home reception yesterday afternoon at Mrs. Maybe's residence in South Roswell. The reception lasted from 2:30 to 5:30 p. m. and it was one of the most enjoyable social functions of the season.

The evening was passed in conversation and ice cream, cake, salted nuts and candy were served in the dining room by Misses Lydia Johnson, Ruby Patton, Helen Kessler and Mrs. McDonald, in a very charming manner. They were tastefully gowned and looked very beautiful.

The guests were met at the door by Mrs. B. D. W. Payton and Mrs. J. A. Graham presided at the punch bowl. Mrs. I. W. Elliott of Dexter also assisted the hostesses in receiving. The Mexican orchestra furnished the music. The hallway was decorated with chrysanthemums, parlor with carnations and the dining room with roses. As the guests departed from the dining room they were presented with a beautiful rose and pearl pin. There were 135 invitations sent out for the reception.

A Model Green House.

Mrs. J. P. Church's green house is now completed and many of the choice flowers are in bloom. This green house is next to the largest in the Territory. There are 5,000 feet of glass in the roof of the house.

The new house is 100 feet long and seventeen feet wide. The buildings are heated by hot water pipes. Not only are the buildings filled with flowers but there are many plants growing in the field. It is indeed a credit to the town to have such a green house.

Shot Last Night.

The negro named Cass was shot with a 45 six shooter last night at Steve Carr's restaurant in the rear of the Legal Tender saloon. It was claimed that the shooting was accidental and that the negro shot himself. However, Sheriff Higgins was of a different opinion and arrested Charley Johnson, the negro porter at the Legal Tender saloon shortly after the shooting occurred and placed him in jail. The man was shot in the right groin and the bullet came out on the back part of the leg. The pistol was owned by the man who is charged with the crime.

Lynch-Martin.

James Overton Lynch and Mrs. Emma Martin Grant were quietly married yesterday evening at 7:30 o'clock by Dr. C. E. Lakens at his residence on Kentucky avenue. Mrs. Grant is a sister of J. T. Martin the ranchman, and recently came here from her home at Cleveland, O. Mr. Lynch recently came here from Canada, but formerly lived here and is well and favorably known. He will engage in the cattle business and they will make the Pecos Valley their future home.

FLOWER SHOW

PECOS VALLEY DRUG STORE
A BOWER OF BEAUTY.

SECOND ANNUAL DISPLAY

Mr. Hamilton Won First Prize with a Beautiful Garden Wedding Chrysanthemum, and Mrs. Slaughter received Second Prize for Best Variety of Chrysanthemums.

The Pecos Valley Drug Company's store has been a bower of beauty this week, the occasion being the Second Annual Chrysanthemum Show inaugurated by this popular store.

The flowers have been on exhibition for three days and the store has been crowded every afternoon with advocates of floriculture. Many out-of-town visitors have admired the collection and expressed surprise that such fine specimens could be grown here. But the Pecos Valley is peculiarly adapted to raising fine chrysanthemums as the specimens exhibited shows.

There were numerous extras and among others deserving special mention was the

prize-winning "Golden Wedding" exhibited by Harry Hamilton of the Slaughter Hereford Home. Mr. Hamilton had many specimens, but the "Golden Wedding" was judged the best individual flower and carried off first prize, a beautiful applique leather hanger.

Mrs. George M. Slaughter carried off the prize for the best collection, as she showed sixteen different varieties. Many of her flowers were beautiful specimens and she crowded Mr. Hamilton for first place.

The judges were: Mesdames George L. Wylls, John W. Poe, and H. F. M. Bear.

It is very commendable in the Pecos Valley Drug Co. in promulgating these exhibitions and our people should take more interest than has been shown.

Judge G. A. Richardson had a beautiful collection of Mammoth flowers, on exhibition, that were raised at Mesilla Park Experiment Station. They were beauties and show what can be done with a little care and attention.

The Best Ever Offered.

15 acres finest land in Pecos Valley, first-class improvements, one mile from town; has perpetual water right. Must be sold in next 10 days. See Nov. 5 4t R. H. McCUNE.

What is Fortune Telling?

What is Palmistry?

What is Phrenology?

Fortune telling is the art of delineating character, to tell the past, present and future, and if practiced aright does as much good as religion; but if practiced wrong does as much harm as murder.

Palmistry is a science and a study of the lines in the hand and the hand as a whole. Phrenology is also a science and a study of the head and the bumps thereon.

But Palmistry is more adapted to the reading of one's life than any other mode that I know of, because there are more nerves leading from the brain to the center or palmies plesus of the hand than any other part of the body.

There is not a motion that the brain does or thinks that the hand doesn't do. For instance, if you should think about a man across the street the hand would naturally point or move in that direction.

There are no two hands alike. Every hand is different, even your own, and the lines come and go, change as your ideas change. No man can tell a lie and keep his hands open. You can take a savage and look in his hand and you will find three lines, heart, head and life lines. You can take a baby two months old and you will find the same three lines, which goes to prove, as folks say, that the lines are not caused by opening and closing of the hand. Take the baby, and as it grows older and begins to have a mind of its own you will find more lines begin to show. Every line has a meaning, still no one line means any one thing. Everything proves itself in Palmistry.

Palmistry is more adapted to telling of your past, present and future than any mode that I know of because if you can't see the lines with the naked eye you can use a magnifying glass, whereas in phrenology the prognostications depend on the sensitive touch of the fingers, and if there is a large growth of hair it is very hard for him to determine accurately. But in Palmistry you see, and seeing they say is believing.

"A Fine Big City."

H. C. Randolph of Plainview, Texas, who has been in Roswell and the Pecos Valley for some days, left this morning for his home. He says Roswell is a fine little city and it won't be long until it is a "fine big city."

Messrs. Hollingsworth and Franks were driving a Shetland

pony Wednesday and it ran away. John Kelley claims they were badly frightened and both of them were white as ghosts when he reached them.

Hon. John G. Hewett, a prominent attorney and mine owner of White Oaks, is in the city to attend court.
